Forecast for Thursday 12 Nov 2020

Weather: A mostly cloudy start with still a little rain, but soon clearing. Then apart from an occasional light shower across Rannoch Moor most ranges will have a dry day, best of the sunshine in the morning. Light and patchy rain will develop across the southwest of the area after sunset. Then a few hours of wet weather developing across most ranges from mid-evening, rain turning briefly heavy.

Chance of cloud free mountain/hill tops above 800m: Patchy cloud between 500 and 700 metres around dawn across the west of the region, much of this dispersing through the morning. Low cloud, down to 500 metres, becoming widespread from mid-afternoon onwards although ranges east of the A9 are likely to hang onto clearer conditions until evening.

Visibility: Very good during daylight hours outside of cloud, briefly dipping in any passing showers.

Met Office Aberdeen Meteorologist's View

Gales expected on the higher summits together with a significant wind chill. Southerly gusts to 70 mph possible on the Cairngorm Plateau by afternoon with marked gustiness developing.

Forecast for Friday 13 Nov 2020

Weather: Rain in the early hours soon clearing. Then some brightness along the a few showers across the west of the region, the east seeing the best of the drier and brighter conditions. Cold and windy with showers falling as hail, or wet snow above 800 to 1000 metres.

Maximum wind: Southwesterly gusts to 50 mph on summits, and to 70 mph over the Cairngorm Plateau.

Chance of cloud free mountain/hill tops above 800m: Patchy cloud down to 600 to 800 metres, this mostly in the morning and possibly extensive across the west at first.

Visibility: Very good with great air clarity

Temperature: **Glens:** Plus 3 rising to 9 Celsius
At 800m: Plus 5 Celsius
Freezing level: 1000 to 1200 metres
